This bill is class war. Protection for select privileged classes while the common and marginalized citizens are left with nothing. Our public services do not work for the common citizen and on act for the wealthy and well connected. This bill fear mongers. Educate yourself on proper gun safety, firearms themselves, and existing gun laws. You are only handcuffing responsible citizens. Criminals do not follow the law. Enforce current laws and stop making new ones. As a veteran, this is disappointing and an infringement on my constitutional rights.
