Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I strongly oppose this HB. I am a Democrat trans-person. Stripping my rights away to defend myself when Trump is actively stirring his base to attack me leaves me vulnerable. This HB compounds on 114 to further restrict my and my community's ability to stay safe.

Part of the reason the appeals court allowed 114 to continue was because they said a 30 day wait for approval isn't an issue. This HB doubles that, directly feeding into our concerns about the bill.

This HB increases the costs associated with the permit. Trump is already tanking the economy and costs are skyrocketing. Increasing the costs with this already arbitrary bill just further prevents marginalized communities from access to self defense.

Requiring legal challenges go through Marion County instead of the injured party's location is flat out unconstitutional. I get trump has broken it. We don't need to keep breaking it by ignoring our judicial system that has been in place since the start of our country.
