Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I am as a registered Democrat opposed to this measure trying to take away and make impossible for a law abiding citizen to obtain a firearm. this is the never ending goal of goverment to disarm the public. The real problem is not enforcing the many gun laws on the books for people that use guns illegally, they are always plea bargined down, no punishment for crimes committed, felony after felony after felony with no punishment. Statistically average citizens and concealed carry permit holders commit less crimes than law enforcement. this measure is a complete waste of tax payer money and time and will cost lives and an attack on U.S. constitution on purpose to disarm its average citizens. Enfoce gun laws on the books and lock people up that commit gun crimes. Oregon does not enforce its gun laws because Oregon wants the constant chaos to be able to achieve its long term goal to disarm the average citizen, obviously Oregon does not care about all the gang killings or they would do something to stop it by enforcing laws, criminals do not obey gun laws, and this is just another tax burden on the average Oregonian
