

Submitter: Ruth Herbert

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I urge your support for this measure. The public passed HB 114 with overwhelming support so it is time for speedy implementation, now that it has been found constitutional. The gun lobby is supporting the opposition, but the voices of a public who wants these safety measures should be the ones you listen to.

Research showing that these 3 measures could save a thousand lives over ten years, means that time is of the essence. I hope you will facilitate effective action and work for gun safety in our state.

Thank you
