HB3075

HB3075-1 please leave the 2nd amendment alone. Everyone has a right to bare arms and protect themselves. If a criminal breaks into my home and do any harm to my family or myself I have the right to defend everyone inside my home. There's no reason for anyone to take away the 2nd amendment unless you are a criminal. For the criminals will always have weapons of some sort on them. I'm a US citizen and I have the right to the 2nd amendment without limitations. There's more homelessness out there and that puts more people in danger of being harmed. Therefore the 2nd amendment is very important to all Americans.
