

Submitter: Morgan Gregory
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

This bill is nothing but bad for law abiding Oregonians. It will do nothing to curb gun violence and will only embolden criminals. Turning law abiding gun owners into felons overnight for owning what is nothing more than plastic is outrageous. The vast majority of law enforcement in this state have also condemned this bill because it will not do anything to make Oregonians safer and will overburden their already severely understaffed departments. It will also negatively impact low income individuals, minorities, and single mothers who want to be able to protect themselves and their families by creating a burdensome tax on a right they should already have. Nothing about this bill is a win for law abiding Oregonians and I pray this unconstitutional overreach dies in committee.
