Measure, Appointment or Topic: HB3075

This is a blatant attack on the Constitutional rights of Oregonians. As we see around the world, crimes are committed whether guns are present or not. Unarming law-abiding citizens doesn't stop the criminal, it only gives them an easy target. As home invasion crimes increase self-defense is an even greater need. Making Americans defenseless only emboldens those that wish to do us harm. This bill is ill conceived and should be killed.
