

Submitter: Smita Chadaga

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB42

Dear Chair Patterson and Members of the Committee,

My name is Smitha Chadaga and I am a physician and parent writing to you today in support of Senate Bill 42 and the -1 amendment. Vaccines prevent mass outbreaks, eradicate diseases, and ultimately save lives. But right now, access to vaccines is at risk for many across our state.

I care deeply about access to vaccines in Oregon because as a physician I have seen them save lives. The most recent was during the covid pandemic.

Oregon's Vaccine Access Program (VAP) is absolutely critical to the health of Oregonians, and right now it is at risk of being significantly underfunded. This kind of massive reduction – currently estimated to be 65-70% of enrolled clinics – will threaten vaccine access statewide and particularly for low-income populations, rural communities, and historically marginalized groups.

This potential funding reduction comes at the worst possible time. Last year, our communities saw the highest number of measles cases in 30 years and the largest pertussis outbreak in the last 50 years with over 1,000 cases. Meanwhile, childhood immunization rates are at the lowest we've seen in Oregon since 2018.

Please take action to protect the health of Oregonians.

Vote yes on Senate Bill 42 and the -1 amendment.

Thank you,

Smitha R Chadaga MD FHM FACP
