

Submitter: Perrin Kerns
On Behalf Of: all the children who have died of gun violence
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I am a teacher and I am a strong advocate for gun regulation. I don't want to be afraid in the classroom, and I don't want to see young people be the target of any more gun violence in Oregon. I voted for Measure 114 and have been dismayed at how our vote has been thwarted. Measure 114 will help reduce gun violence in Oregon, including suicides and homicides.

My husband lost his brother to suicide by a gun that was handy at a moment of despair.

Please help get it smoothly implemented this session.

Dr. Perrin Kerns
