

Submitter: Gregory Jackson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This measure, as written, is a huge infringement on our 2nd amendment rights. The need to show proof of training when there IS no training available is, essentially, a full out restriction on purchasing firearms.

This measure targets law abiding citizens and does nothing to keep firearms from criminals.

I absolutely am opposed to this measure
