"The 2nd Amendment does not read 'The 2nd Permitted Amendment.' This bill prices 'We the People' out of our constitutional right to bear arms. By imposing unfunded government requirements, Measure 114 creates a de facto usurpation of our 2nd Amendment rights, disproportionately affecting law-abiding citizens. Furthermore, recent rulings, such as the Supreme Court's decision in *New York State Rifle & Pistol Association v. Bruen*, have reaffirmed that firearm regulations must align with the nation's historical tradition of gun laws. Measure 114's restrictions fail this test and are likely to be deemed unconstitutional by the Supreme Court, as they impose undue burdens on a fundamental right."
