

Submitter: Rocco Malo-Resta

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I strongly oppose the attempt to infringe on our rights to own, purchase, and bare firearms. At a time when we are facing unprecedented threats from within our own country, it is absolutely imperative that we have the means to defend ourselves. It is extremely disappointing that we are wasting our political resources on bills designed to limit our right to protect ourselves, when we should be taking this extremely valuable time to prepare for the potential threat that is facing us from within our union.
