

Submitter: Minta Harding

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Please move forward to implement this bill. Our society understands that cars can be deadly, so owning & operating one is considered a privilege & regulated. If we do this, surely it must also be the case for guns. There have been family members of mine who shot themselves. Shooting of children in schools & churches in our country has increased in recent years. Better control of guns would support police by making their vital jobs more safe.
