

Submitter: John Daggett

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am a native Oregonian, former US Marine, and a hunter. I also have grandchildren and great grandchildren who attend schools. This measure, passed by the voters, will reduce the risk they face in our state today and it will not interfere with sane firearm use.

I urge that HB3075-1 be moved out of committee as soon as possible to help facilitate the full implementation of Measure 114.

Thank you.
