

Submitter: Kirsten Davis  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3626

Dear Joint Committee on Transportation,

I am writing in support of HB 3626 making powered micromobility devices part of the transportation codes. This will help increase safety for people like me and other micromobility users of all kinds by educating everyone around the rights and responsibilities of using these kinds of transportation. By doing so, it will help to ensure safer infrastructure and encourage more people to use micromobility. This in turn will decrease traffic congestion, local pollution and global climate effects from the burning of fossil fuels.

Finally, it will help us move away from a car-centric society towards one that is more active, healthier and more socially connected as people get out on their bikes or other micromobile devices and interact more with their environment.

Thank you for voting 'yes' on HB 3626.

Sincerely,

Kirsten Davis
