

Submitter: Amanda Hoffman
On Behalf Of: Self
Committee: House Committee On Behavioral Health and Health Care
Measure, Appointment or Topic: HB3912

I wish you read these but we know you don't. This is going to cut your physicians in Oregon by over half. Naturopathic physicians are primary care providers, qualify for DEA licenses and insurance companies. This bill is just another way to knock us out of the medical healthcare system. Who presented this bill ? Why the concern? Leave the Naturopathic providers alone, we can even submit for Medicare w our orders, why does Oregon care what we put on Facebook?? We are doctors our residency is during school. Ty if you read this??????????????
