

Submitter: Troy Hurner  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

I strongly oppose HB3075, HB3075-1, and measure 114. HB3075, HB3075-1, and Measure 114 are an infringement of our rights and is unconstitutional. This is an egregious use of taxpayer's money and an illegitimate use of law enforcement time. We need law enforcement out in public patrolling for crime and helping our citizens of Oregon not wasting their efforts in a classroom when we have community programs that are more than qualified to educate our citizens in gun safety I.E. hunters' safety and concealed handgun licensing. HB3075, HB3075-1, and measure 114 will not stop, nor deter criminals, school shooters, and citizens seeking to cause self-harm. Nor will this stop them from obtaining firearms or possessing them. What this bill proposes is making our responsible gun owners criminals and out laws for obtaining firearms and large capacity magazines legally and lawfully.

HB3075, Hb3075-1, and measure 114 are an example of government overreach and only punishes law abiding citizens and stops them from protecting themselves, family, friends, and even citizens and police officers in distress and need of protection. In a time where Oregon has become a sanctuary state for illegal immigrants with extensive criminal history, violent behavior and sex offenders, we need protection from the police and law-abiding gun owners to help keep our citizens safe from these predators.

With the combined help and efforts of police/law enforcement and law-abiding gun owners, we can help keep our state and its residents safe, and in this aspect, we can help deter school shootings, violent criminals, violent gang members who illegally crossed our borders, that as a strong community we will not stand for this, and we will protect our residents. Again, I strongly oppose, and I urge the committee to oppose this bill as well.
