

Submitter: Lynda Hershfelt

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

It is my belief that this bill is against our right to bear arms. Without directly says so. Criminal history checks are already in place to purchase guns. This bill's intent is to stop people from purchasing the ammunition needed to use the gun. It is silly people that hunt for food can not buy ammunition it shoot a deer or elk. Or what animal can provide food for our tables.

Not everyone one is a criminal. Criminals are not usually buying these things. They steal them. Your not getting guns and ammunition out of criminals hands.
