

Submitter: Tom Timbrooks

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

The second amendment to the U.S. Constitution says, "A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed". Any fee for a permit has the potential for abuse. This could provide the state with the ability to "price out" anyone wanting to purchase a firearm which could directly violate the second amendment.
