Measure, Appointment or Topic: HB3856

Adding additional taxes to people who are already taxed through the state and the federal government have enough coming out of their checks, not including health care, monthly bills, and transit taxes that most of us don't even use. ODFW has plenty of funding and does not need to start taxing people who just want to keep the lights and water on and keep food in their children's stomachs. I vote NO for this bill.
