

Submitter: Jacob Anderson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I support HB 3075-1. The people of Oregon passed measure 114 and after two years, it's vital that it be implemented.

As the parent of an elementary school child, the thought of a school shooting terrifies me, and it makes my blood boil to think that he and his entire generation are being raised under the constant specter of gun violence in schools. This bill is a good step toward implementing this important measure and I support it.

I urge you to respect the will of the people and the opinion of the appeals court and pass HB 3075-1.
