

Submitter: Dale Prentice

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose House Bill 3075. Another oppressive action by power hungry politicians and communists trying to take away your rights to protect yourself and your property. Just another attempt for government to disarm the law abiding people. Criminals have stolen guns and black market guns, they don't care about these laws because they don't affect them and will make the public generally less able to protect themselves. These proposed laws put money, time and bureaucracy in between you and your constitutional rights, socialist movements end badly.
