

Submitter:

Sean McGann

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I oppose as the measure infringes on the rights of Oregonians. It's ok not to like things. It's not ok to take peoples rights away. I work for a FFL dealer and can tell you there's a lot of lies being told by the news channels about this measure. Background checks are already required by all persons no matter if a firearm is being sold by a FFL dealer or privately. This just makes it nearly impossible for most to even afford gun ownership. With the extreme rise in cougar numbers and sightings in highly populated cities you're telling residents to just deal with it without proper tools to protect themselves. Bear spray only works properly if the winds are in your favor. And if kids need to be protected from wildlife you're even less likely to be able to do so safely. Please stop this nonsense and and don't infringe on our 2nd amendment rights.
