Submitter: Cheyenne Wray

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure, Appointment or Topic: SB722

Listen, I just traveled to Montana for a funeral so I'll be brief and not very eloquent: using artificial intelligence to decide on rent and other housing related issues is patently unfair and wrong. As an Oregon resident I say NO to using a computer to decide rent and occupancy rates. A.I. is so easily misused to harm people, pay a human being to do it. Yes on SB722!!
