

Submitter: Jonah Austin

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am a member of the Democrat party and I firmly oppose any implementing of modified implementation of measure 114. The wording of the bill will make it more difficult for marginalized and law abiding citizens to obtain firearms (as is their constitutional right) and does not have any proven methods to meaningfully reduce gun violence. Increasing the barriers for purchasing a firearm when background checks were already mandatory for all transactions in Oregon is needlessly difficult and will not stop bad actors from acquiring firearms, merely the poor. This bill is classist and a disingenuous attempt to curb gun violence.
