

Submitter: Debbie Hendricks

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill technically violates the Oregon constitution & the US Constitution. The requirements to obtain a firearm don't provide for the development of training or financing law enforcement to train & maintain a database for those completing the requisite steps. This bill denies law-abiding citizens from obtaining a tool to defend themselves, especially when the ranks law enforcement have been downsized & left to be secretaries to history. Some areas of unincorporated Oregon only have county sheriffs to render aid, usually arriving long after a crime has been committed. Direct your efforts getting illegal guns off the street & incarcerating felons who have committed gun crimes. You haven't weighed the cost by your lack of knowledge & doing your due diligence to thoroughly consider your responsibility to write a cogent, logical, & reasonable bill.
