Measure, Appointment or Topic: HB3075

This bill is against everything AMERICA STANDS FOR. It's sickening that we are at this point that these Dictators have enabled measure 114 as well. Allowed by Judges that were placed into office by these people that say they are Oregons elected representatives, which we know is and has been cheated and our mail in voting system has been compromised from the beginning. Only to push the Socialist ideology. We the people have had enough. For this measure there also is no way the police departments could ever keep track and keep up with this. This is forcing them to break their oath to protect the United States Constitution.
