Measure, Appointment or Topic: HB3075

This bill goes against our constitutional right to bear arms. This will do nothing to eliminate any crimes or criminal activity and is strictly being put in place to oppress law abiding citizens. This bill will also put hundreds of hard working Oregonians out of business, since there is no plan or setup of any classes available for anyone to take to now purchase firearms. There is already an extensive background check in place and when this bill was presented it was written to mislead the general public into thinking there was not a background check. Thank you for taking the time to read this and listen to what my feelings on it are. I'm truly praying this does not fall on deaf ears and the judges ruling over this will realize how destructive this is to our state and our economy.
