

Submitter: Justin Hendrix

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill is a violation of our freedom to bare arms. Not only is it based on false information. States with looser gun laws are actually safer. But there is absolutely no structural in place to let us law abiding citizens get a license to purchase a fire are. There for you are denieing us firearms. And turning law abiding citizens into criminals. This bill needs to be put to another vote and needs to be by county majority not popular vote. Many of us blue caller actually have to work Americans need firearms to protect our livestock animals and I'm sure you never have had to scare away a pack of coyote trying to eat your income (you probably never have fired a weapon) but it's hard to do so on 10 round limits. Please fight for our right to bare arms . And oppose this bill
