House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I vehemently oppose HB 3075/Measure 114. I wholeheartedly believe if the vote was to be re-cast today we would not have anywhere near the same number of individuals voting in favor of 114. Not only does it go against a very real constitutional right it also leads down a dark path of putting too much power into local police departments in how they decide to dole out our own rights to bear arms. Guess who will be most likely alienated and taken advantage of in this new scenario? You guessed it minority and marginalized groups! Please reconsider this all together
