House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

As a veteran and a staunch defender of our constitution I believe that this bill goes against our constitutional rights. Bills like this will do nothing to curb Gun violence, since criminals don't obey laws. Instead it will make good, law abiding citizens, criminals overnight and constrict their ability to protect themselves. There should be no limit to a citizens ability to protect themselves from the government and criminals. These pointless stipulations are an infringement on our God given rights. Please don't pass this
