

Submitter: Daniel Chase

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This legislation does nothing but hurt the law abiding citizen. It is uneducated, unethical, and completely unconstitutional. I would go as far as to say potentially treasonous.

You are hurting the battered spouse trying to escape and defend themselves from a domestic abuser. You crushing the dreams of a potential Olympic athlete. You are stealing food from the mouths of Oregon's many hunters. You are firing many private security contractors from their jobs. You are closing down shops and businesses that took years of work to achieve. You are thieving power from the people, but you knew that already, didnt you?

Shall not be infringed.
