Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I am oppressed to 3075, Clinton's ban in the 90s showed it made no impact on preventing crime, and overnight it makes 70% or more of Oregon's law-abiding citizens criminals. They were 1,116 deaths in Oregon from malpractice. So should we limit doctors or ban them? This bill is like banning sober drivers because there are drunk drivers on the road, so let's come together and get tough on actual crime and lock up criminals, not make everyone a criminal.

Thank you
