

Submitter: Ryan BROOKS

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I believe this measure is a complete infringement on our second amendment rights. It does nothing to stop any bad guy and only punishes the law abiding citizen preventing their right to purchase and restricting what can be bought.

This bill will punish hunters and gun enthusiasts as well as the average every day citizen who wants to carry to protect themselves and or their family.

This measure is not sensible and needs to be discarded as well as measure 114.
