For rural Oregonians, police are 30 or more minutes away. We face threats to our livestock and livelihoods by predators weekly. Coyotes, cougars, black bears, raccoons, possums, etc. Some animals hunt in packs and 10 rounds isnt always enough. Now, I can no longer buy magazines in a capacity of adequate size to protect my family or livestock.

On top of that, I am going to have to take and pay for an expensive class just to purchase a gun?!? This is infringement at its core! We rural folks may not have access or be able to afford to take a class just to buy a firearms to protect our livelihoods. This is unconstitutional and MUST not be allowed to pass.
