

Submitter:	Katie Wirth
On Behalf Of:	My medical care
Committee:	House Committee On Behavioral Health and Health Care
Measure, Appointment or Topic:	HB3912

I am in opposition of this bill. If it were not for naturopathic doctors I would not have found any relief with my debilitating PMDD symptoms. They offered routine bloodwork, I have been treated for an infection when I was told that I could not get in to see my own gynecologist for over 3 months. I get routine bloodwork at my naturopathic doctors clinic, and have been prescribed antibiotics when needed. The time they spend with their patients is meaningful. They answer multiple questions and they care for their patients. They check levels of things beyond what would be checked at a MDs office. They are a valuable asset to our community.
