Guns don't kill people, people kill people...but if wrong person can't get a gun, lives are saved.

With guns being the number one cause of death to children, it would be senseless not to pass HB 3075. Any way we can put space between a gun and a child is helping the lives of all children, and the lifelong suffering of their parents and guardians.

I am a teacher, and I always tell my students that their safety is THE most important part of my job. Yet, when I drop my own kids at school (the same school I teach at), everyday I say a silent prayer/hope, that today is not the day that I see their school on the news, fallen victim to a person with a gun.

It would be senseless and irresponsible, failing o our children and families, if HB 3075 isn't passed.
