Measure, Appointment or Topic: HB3075

I oppose limitations on the liberties guaranteed in our state and federal constitutions. This proposed bill to limit access to arms is as repugnant an assault on our civil liberties as a poll tax or literacy test to vote, or requiring a grammar check with attendant fee and wait time to publish an article. The excuse of public safety and security has been used for all manner of suppression of citizenry throughout history. Please don't push Oregon down that road.
