To whom it may concern

We are a small business, contractor here in South Douglas County. Our business has been crippled and continues to be attacked by taxes, over regulation, inflation, and increased insurance costs since Covid. We have had to terminate all our employees due to tax burdens and trying to be compliant with all the other regulatory measures the state takes.

We cannot afford another hit in the form of taxes. PLEASE reconsider the burden facing Oregonians who keep this state running in form of taxation. If the state will reallocate funds that are being wasted elsewhere, which there is a TON of wasteful funding and spending in Oregon, I think you could save the taxpayers that this will hit the hardest.

Thank you for taking the time to read this and our family strongly urges Oregon legislators to eliminate this terrible bill. You allow indigenous family's 5 tags per person and they already get meat and items from their tribes.

No more fees on tags or licenses, they are already costly enough.

Sincerely,

A. Jarvis
