I oppose!

This is yet another desperate end around gun control bill that will have no impact on gun crime and severe impact on Oregonians' CONSTITUTIONAL RIGHT TO BEAR ARMS. This bill is a waste of taxpayer money. It is simply posturing by idiots who don't understand or respect our constitutional rights. The end goal of the anti-2A ideologues in the Oregon legislature and DOJ is disarmament or draconian reduction in the people's ability to propel bullets or BBs in self defense or other perfectly legal and reasonable uses of firearms. These ideologues will lose that fight. In the meantime we citizens are forced to pay their salaries and for ongoing legal challenges. Just stop. You will not succeed in taking our rights away. If you care at all about the health, safety, and happiness of Oregonians, just stop this silliness.
