

Submitter: Concerned Citizen
On Behalf Of: Law abiding gun owners
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I strongly oppose this measure. More & more law abiding gun owners/citizens have been getting restrictions placed upon us, leaving criminals wide open to CONTINUE to do what they have/will continue doing whether this measure passes or not. The only people these measures/laws effect are every law abiding gun/owner citizen. And WE are NOT the problem here. This measure will make this more of a financial burden on law abiding gun owner families & will NOT deter the CRIMINALS. THIS only making things harder for us in mire than one way. IF a change in gun related crimes is really what people want to see then put as much effort into catching the CRIMINALS & taking care of The MENTAL HEALTH of your citizens. Thank u!
