Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Arbitrary, ineffective, and the continued theft of our constitutional rights must not be allowed to continue through our legislature. The people cannot be protected when laws, such as Measure 114 and the proposed HB 3075, take away that which is given to all under the 2 Amendment!

Stop over legislating! It is proven that gun laws only restrict the ability of law abiding citizens to protect their property, homes, and family. Criminals, no matter what these gun laws require, will get any firearm they desire to commit crimes against persons. The laws are NOT a deterrent! The laws don't save LIVES!

I strongly oppose Oregon's continued attempts to prohibit the people from exercising their 2nd Amendment rights and protecting what matters—the reason we own weapons now—OUR HOMES, PROPERTY, AND FAMILY! Please stop the liberal strong arm efforts to strip away our livelihood. Whether it is restrictive gun laws, more taxes, or reverse-racism (know as DEI), the majority party needs to remember that they represent the PEOPLE, not their party ideologies or personal beliefs and values.

Vote NO on HB 3075. Please.
