I strongly oppose HB3838. I am a registered nurse and have been a part of unions my entire career. However, in this work environment this measure is completely unnecessary and invasive. An adult care home is an environment for residents to feel as if they are at home without feeling as if they are in a hospital but getting the proper care they require. Imposing and requesting documents from care homes is very much unnecessarily invasive. We are already regulated by DHS and do not need extra regulation placed upon homes that are already short staffed but doing a great job of taking care of our residents.
