House Committee On Education

Measure, Appointment or Topic:

HB3360

I support putting the corporate kicker into a fund for school infrastructure, but I think Section 2 (4) should be removed from the bill. Requiring three votes on a local levy before applying for funds would give local voters a reason to vote No on a levy three times in order to get the state funding. Elections cost money, and requiring three of them would be a waste of money. The school infrastructure fund should be available for school districts that need funds for repairs without unnecessary delays.
