Food insecurity in Deschutes County is at an all time high. Our food pantries and food programs can barely meet the needs of the community. If SNAP benefits are cut this will put an extra burden on these programs that are already struggling to keep afloat. All Oregonians deserve to be able to have nutrition to sustain their lives and this includes immigrants as well. Without adequate nutrition, families and individuals are unable to function well, increasing health problems, difficulty attending to school lessons, making it to work, etc. I fully support this passage of this Bill. Thank you for considering my input.
