Bill Hb 3075. Will never stop gun violence. All it does is puts the gun in the hands of the criminals.

If you take guns away from law, abiding citizens and make them impossible to get, the crimes will go out of control more than now.

We must be able to defend our own. It's in the constitution, and it shall stay that way, shall not be infringed upon.

This bill is just a grab because of the 114 bill that was shoved in so fast and so bad it couldn't function if implemented. The state police or the sheriffs are not ready to implement this.

This is a very very bad bill.
