On Behalf Of: Good and decent Oregonians  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

Where were you democrats when a previously deported illegal alien, 'allegedly' attacked an 86 yr old man with a knife in a parking lot of the Johnson Creek Fred Meyer in Clackamas County? Oh that's right, you were busy providing him this lovely person with "Sanctuary".

The above referenced illegal alien had been deported after being charged with assault and attempted murder after allegedly attacking his co-worker with a nail gun at a construction site in Happy Valley in April 2018. These are the kind of people you would prefer to protect? Rather than dealing with REAL CRIME, you demon-rats seek to prevent your own citizens from protecting themselves.

Your ONLY JOB is to protect the rights of Oregonian citizens yet you seek to remove our god given rights to bear arms for self defense to satisfy your sick obsession to your globalist Marxist communist overlords. You people are suffering from a kind of Marxist communist mind virus and are truly mentally ill, making you completely unfit to serve in public office. Whomever is considering these demented ideas posed as "legislation" should resign immediately. You have absolutely no business being in any position of "authority". Did you NOT take an oath of office to defend the Constitution?
