

Submitter: Elaine Lavington

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill is against our Constitutional right to have the right to bare arms. This is making law abiding citizens criminals. The best effective way to fight gun violence is enforce our current laws and make the criminals accountable for their actions. The fee's for this bill negatively impact the lower income residents of Oregon. The amount of money Oregon is wasting on non constitutional law is a negative for Oregon, those money's could help elsewhere. The availability for a permit is shutting down the system altogether. The fiscal impact of this bill negatively impacts all of the state of Oregon and the local law enforcement agencies already strapped for funding in this state.

I fully Oppose this bill.
