Committee: House Committee On Labor and Workplace
Standards

Measure, Appointment or Topic: HB3838

As a care provider with over 25 years of caregiving experience in Wilsonville and Portland areas, I strongly oppose HB3838.

Oregon already has a relatively high minimum wage in the nation and BOLI is already overseeing businesses for employees and their rights.

Another reason is that HB3838 does not offer additional funding from Medicaid to fund all the additional costs associated with the bill. I can enumerate a lot of other well founded reasons, but most have been expressed by other people that also strongly oppose this bill.

Please carefully consider the impact of legislating more regulations on the long term care communities who provide housing for the many residents in need of their services.

Sincerely,
Camelia Apetroaei
