

Submitter: Ian Knight

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

My family and I, are opposed to this bill. This doesn't prevent bad/criminal people from having weapons or getting them off of the street. They will always get them and break the laws doing it.

This bill is against our constitution for law abiding American citizens, the ones trying to protect the innocent and our family's. This will hinder a man or woman trying to feel safe and protect their own family's.

The world is not perfect, no body is. We all have to understand this constitutional right has been set in place since the beginning to protect us from a tyrannical government and bad people on our own soil.

I have a wife and daughter I fear one day if we as a state keep this going down the path it is heading. I won't be able to protect them myself because I abide the laws set in place. If someone that doesn't care for the law will always have an upper hand in almost any situation.

This is harming our constitutional rights, And won't do any good for the people who do everything right when it comes to the law book. You're harming the average man or woman or person trying to protect themselves or family or friends.

Thank you.
